

TFAS/Marine on Line Enhancements (more commonly known as BCP1)

April 2004

Roles of MISSO-27

- An extension of the CMC (MI) and serves as the jurisdictional pool of experts to assist reporting units in their efforts to accurately report and retrieve personnel and pay information using various automated manpower information systems as well as implementation of MOL enhancements such as BCP-1/ APES..

MOL enhancements

- **BCP-0 “Individual Capability”**
 - Self-certification
 - View your own MCTFS record
- **BCP-1 “Unit Capability”**
 - Foundation of workflow and permissions
 - Moves point of entry closer to event
- **BCP-2 “HQ Capability”**
 - Connect work flow from individual to HQMC and back
- **BCP-3 “Expansion”**
 - Drill Accounting and Personnel Management

Unit Capability

- **BCP-1 is the key to future fielding**
 - **The first step in giving small unit leaders increased capabilities**
 - **It must be fielded correctly and robust enough to handle future enhancements**
 - **Success of BCP-1 will facilitate development of other capabilities**

Unit Capability

- **BCP-1 (Cont)**
 - **Establishes the workflow needed to pass requests and establish permissions**
 - **Works within structure to allow visibility of information**
 - **Generates some MCTFS entries at the appropriate level**

TFAS/MOL

- How it works
 - WEB Based
 - Local MISSO initiates RUC level Commander
 - Commander provided a template
 - Accept or change
 - Commander determines authority through assignment of permissions

TFAS/MOL

- Types of permissions
 - Delegate: The authority for another to give permissions
 - Approve: The authority to approve requests
 - Active Reviewer: Required to recommend
 - Passive Reviewer: Auto Info on request
 - View Only
- Different modules have different permissions

TFAS/MOL

- Workflow determined by Scope
 - Battalion/Squadron
 - Company/Detachment
 - Platoon/Division/Directorate
 - Squad/Work Section

Echelons

- Echelon 1
 - Individual User
- Echelon 2
 - Small unit leader; able to enter requests for a member of his unit
- Echelon 3
 - RUC level typically Battalion or Squadron
- Echelon 4
 - External agency capable of taking action on members of multiple units (IPAC)
- Echelon 5
 - HQMC

Unit Phase I

Routine Capability

Leave

Conduct and

Proficiency

Promotion

Recommendation

Morning Reports

Automated PES

Unit Capability Leave

- Allows member to request, check in/out.**
- Allows leaders to request leave on behalf of their Marines and review all requests in their chain.**
- Generate appropriate diary entries.**

Unit Capability Conduct and Proficiency Marks

- **Allows small unit leader to create occasion and make recommendations and route through chain of command.**
- **Provides visibility of Marine's record**

(BIR/BTR/ROS/AWDS/EDU).

Unit Capability Promotion

Recommendation

- Allows small unit leaders to recommend/ not recommend for promotion.**
- Provides listing of select grade within the user's scope.**
- Allows Will Not Promote upon selection if Marine is no longer**

Unit

Capability

Unit Management Status Report

- Allows small unit leaders to change duty status (leave, sick, UA, etc)
- Allows movement from one work section, platoon, Company to another.
- Provides matrix of On hand, FAP, leave, etc.
- Rolls up from lowest to highest

Unit Capability

- **Phase II (Sep/Oct)**
 - **MOL Management**
 - **Customized Reports**
 - **Electronic PAR**
 - **PTAD**
 - **Special Liberty/Out of Bounds**
 - **CO's Message Package**
 - **New Personnel Locator**
 - **TO/TO Line Number tracking**
 - **Composite Score Calculator**

CONCERNS!

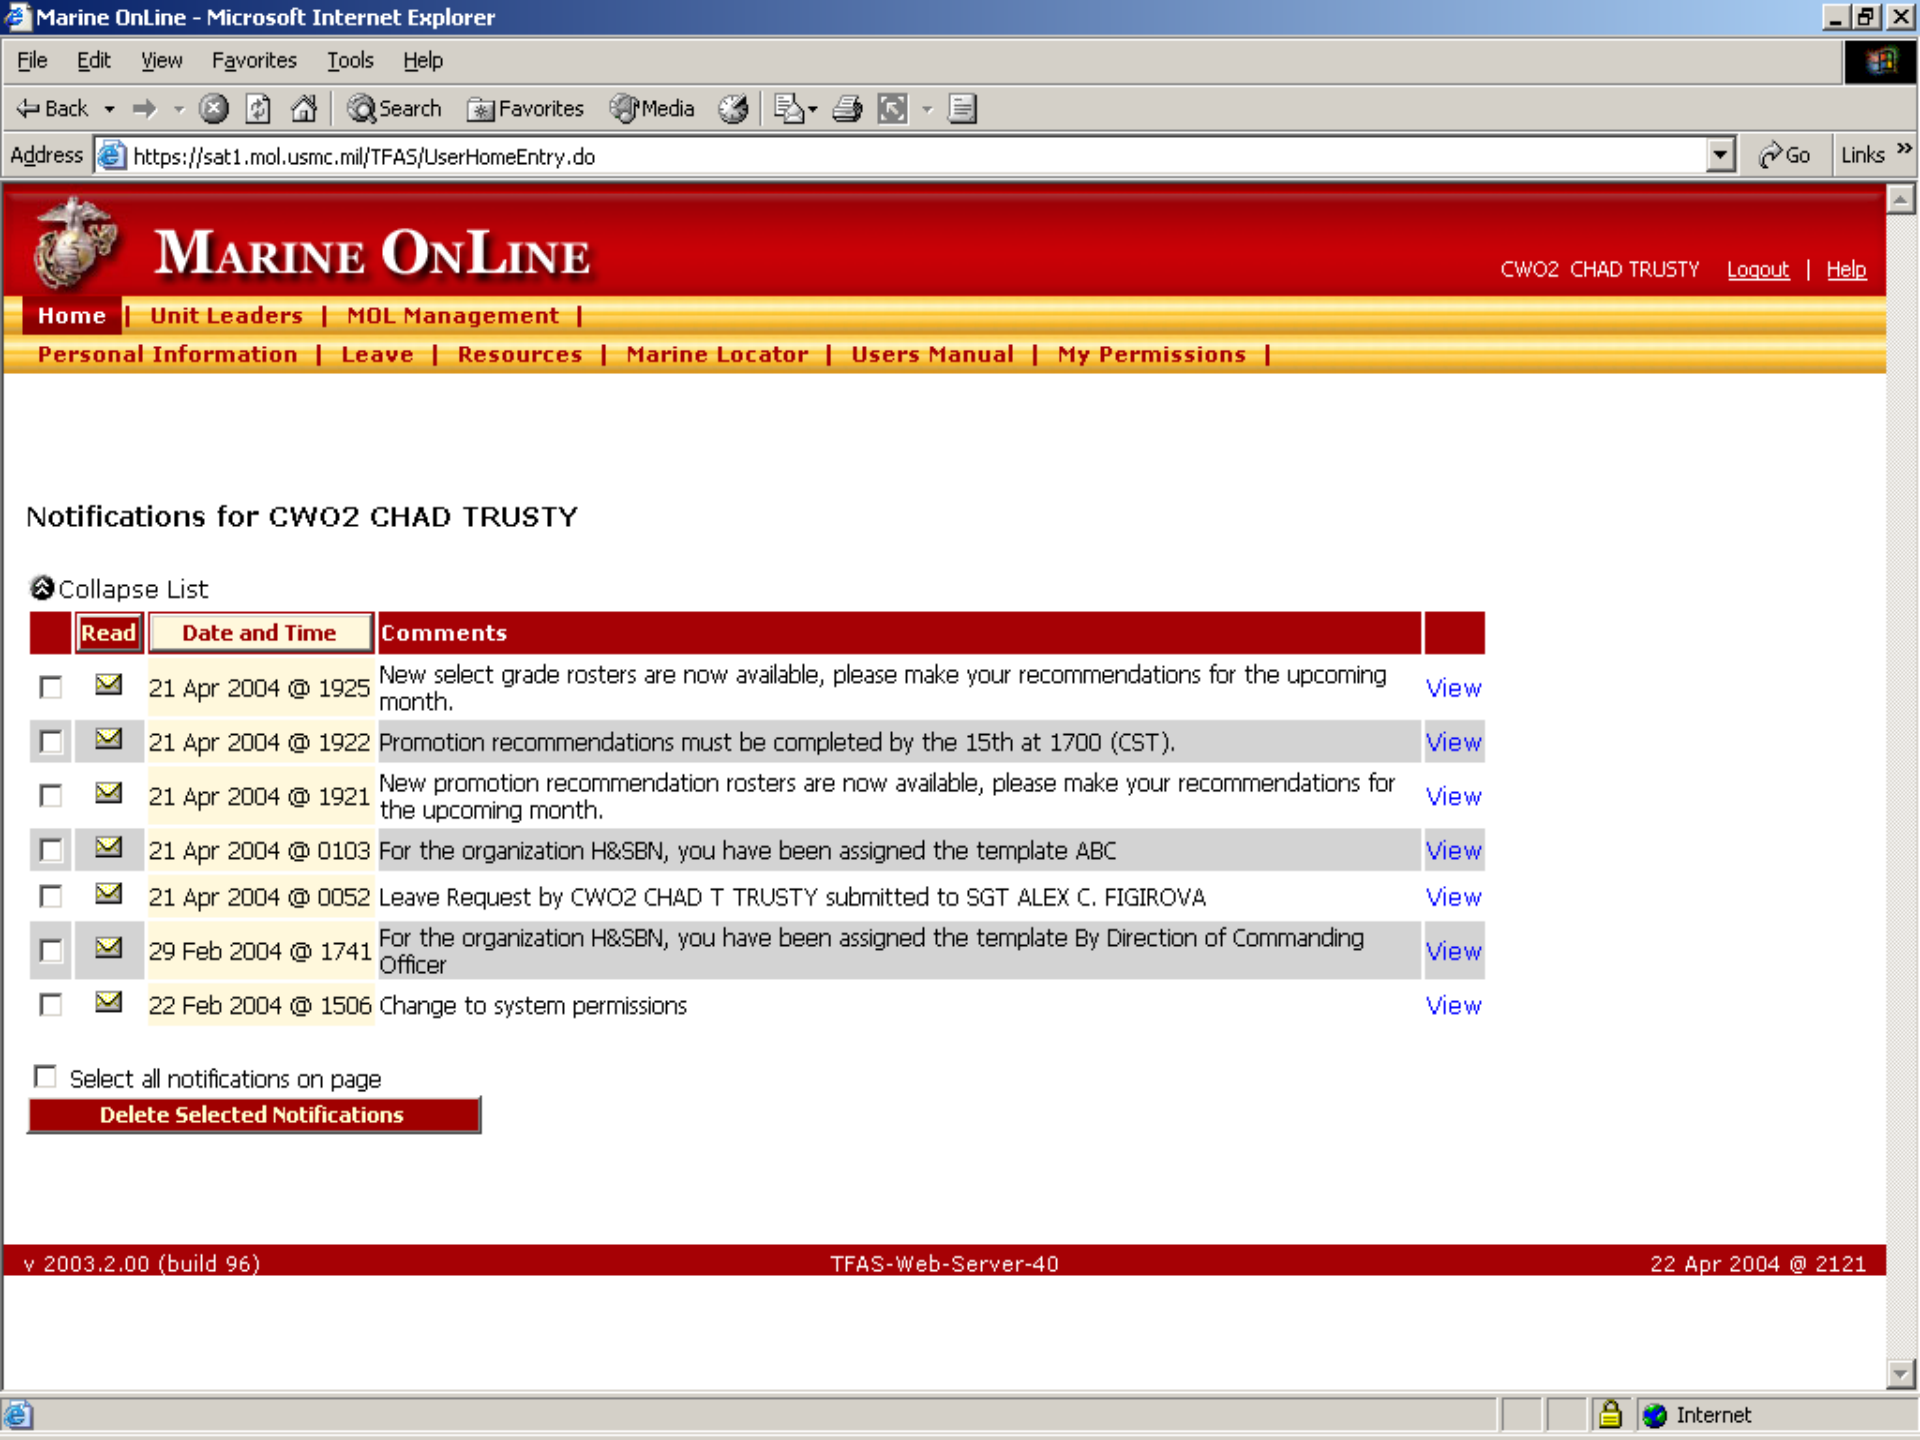

- This is additional work!
 - Already doing the work. Just empowering the chain of command, decreasing errors, increasing timeliness.
- Need additional training!

No additional expertise beyond what already have.
- Not enough computers!
 - Same work currently being done on computers.
- Connectivity problems!
 - Same as now.

BENEFITS!

- Increase timeliness.
- Decrease errors.
- Enable Reach back.
- Ultimately, return manpower savings to the operational MOS.
